## SUMMARY

I am a passionate and committed developer hailing from India. My journey in the tech industry has been influenced by a solid foundation in diverse programming languages and frameworks, encompassing web development, mobile app creation, and game development.

---

## EXPERIENCE

### Flutter Developer at Celebrare

**Dec 2024 - Mar 2025**

- Collaborated with various teams to develop the iOS app for Celebrare, which is their main application, as well as Wowlinvite, their newest offering.
- This involved working closely with designers to ensure a seamless user experience, as well as coordinating with backend developers to integrate the necessary features and functionalities.
- Regular feedback sessions and testing phases were done to refine the apps and address any issues promptly.

### Intern at Lafleurtech

**Mar 2025 - Present**

- Developed RAG-based solutions for government organizations, including JAC Chandigarh and NDMC Delhi.
- Worked on developing a software that allows users to integrate their own data into the RAG-based system
- Collaborated with multiple teams to improve efficiency and optimize processes throughout this period.

---

## EDUCATION

### B. E. in Computer Science and Engineering

**Dec 2021 - 2025**

Chandigarh college of engineering and technology,

**7.85 CGPA**

---

## PROJECTS

### 1. Gem AI App

**Dart - Flutter, Gemini API, Firebase**

- Engineered a dynamic application designed to generate a variety of creative content types, such as songs and stories, while providing interactive AI engagement for users seeking inspiration and entertainment.

### 2. Meetings Summarizer

**Nextjs, ShadcnUI, Fastapi, Groq API**

- Developed and executed a comprehensive web application that enables users to upload their meeting videos, which are then summarized. Additionally, the platform allows users to ask related questions.

### 4. PlantIT (Plant ordering website)

**MongoDB, Express, React js, Node js**

- Developed a user-friendly website that generates short links from input URLs and tracks visitor history, improving link management and analytics for users.

---

## TECHNICAL SKILLS

**Languages:** Python, C/C++, JavaScript**Frameworks:** React, Next Js, Express Js, Flutter**Cloud:** AWS (Intermediate), Google Cloud (Intermediate)**Deployment Tools:** Docker**Databases:** MySQL, MongoDB, PostgreSQL
